

SUMMARY

Graduate in civil engineering with a focus on structural engineering, specializing in seismic analysis and design of reinforced concrete and steel structures, as well as Building Information Modeling (BIM). Highly motivated to contribute analytical skills and expertise to innovative construction projects.

EXPERIENCE

Jigjiga, Ethiopia
Oct 2017 - Oct 2019

Structural engineer

SRS study, design and supervision works enterprise [https://sdswe.org/]

- Performed structural design reviews and ensured compliance with relevant codes and standards.
- Conducted structural inspections of bridges and residential buildings, assessing condition, safety, and serviceability.
- Carried out site assessments and provided technical recommendations for structural improvements.
- Reviewed and interpreted engineering drawings and specifications for accuracy and constructability.
- Collaborated with project teams to resolve structural issues during construction.

Jigjiga, Ethiopia
Nov 2019 - Sep 2022

Project manager

SRS study, design and supervision works enterprise [https://sdswe.org/]

Responsible for construction supervision and construction control for buildings, monitoring construction activities, reviewing design documents for compliance and accuracy, managing project schedules, releasing payments to contractors, and ensuring that all work is completed according to design plans and quality standards.

EDUCATION

Weimar, Germany
Oct 2022 - Jul 2025

M.Sc. in Natural Hazards & Risks in Structural Engineering

Bauhaus-Universität Weimar

Thesis: Seismic performance assessment of RC wall structures with insights from the 2023 Kahramanmaraş earthquake.

Jigjiga, Ethiopia
Oct 2019 - Sep 2021

M.A. in Project planning and management

Jigjiga University

Thesis: Effective contract administration for construction projects

Jimma, Ethiopia
Jan 2013 - Jul 2017

B.Sc. in Civil engineering

Jimma University

Thesis: Structural analysis and design of reinforced concrete buildings

SKILLS

- Structural Analysis & Design: RFEM, SAP2000, ETABS
- Building Information Modeling (BIM) – Revit, Desite MD, AutoCAD
- Knowledge of design codes & seismic design principles
- Project Planning & Management
- Process Optimization and Continuous Improvement
